

Mario Gutiérrez

About me

I am a data engineer from the Polytechnic University of Madrid. Among my hobbies are playing sports in general, basketball in particular, and walking in nature. I also enjoy cultural activities, such as going to the theater, museums, or sightseeing. I am interested in topics related to cybersecurity and machine learning. Furthermore, I like connecting these interests with social aspects that can improve people's lives. Regarding my personality, I consider myself a person with strong leadership skills and a keen attention to detail. I also enjoy working in collaborative teams.

Professional experience
